Major Project Fund Application Form – Information Guide

1.0 About Your Organisation

i 1.1 Organisation Details

Enter the name, registered address and postcode of the organisation applying for funding.

i 1.2 Contact Details

Enter the details of the individual who is the main contact for this application and be responsible for the delivery of the project if the application is successful. This person must be either an elected member or paid employee of the organisation /club applying for the funding.

i 1.3 Bank Details

Enter the bank details where the fund should be paid in to, should this application be successful.

i 1.4 Nature of Organisation (Club Mark)

Enter the date your organisation achieved club mark status and your club mark registration number or equivalent.

i 1.5 Other Funding Applications

You need to demonstrate why this project can't be funded by another source by showing evidence that you have applied for funding elsewhere.

2.0 Project Details

i Address

If the project is linked to more than one address, enter the address where the main work will take place.

i What are you planning on doing?

This is your opportunity to explain to the Board exactly what you are going to do with the funding if you are successful. Make sure you have read and understood the Fund's 'Strategic Objectives' and that you use examples of how your project will directly provide sustainable sport in Hatfield as well as meeting one of more of the other three strategic objectives.

Remember that your project needs to be carried out in partnership with others, so make sure you include who your partners are, what part they will play and why are they important to your project. Make sure that you are concise in this area of your application.

i What do you hope to achieve?

Here the Board wants to hear about how your project will provide new sporting opportunities and what impact that will have on the community of Hatfield.

Make sure that you answer this question fully by explaining what your project hopes achieve and why the project is necessary. A 'strong application' will be very clear about what achievement looks like and the difference that that funding will make to the number of people playing sport in Hatfield.

Only those applications that can be supported with research and evidence will be supported. It is therefore vital that here you provide any evidence that supports the need for your application. Also use any information/data that sets the wider context to why your application should be supported (e.g. local authority data, social/health information or sports participation statistics).

This section should provide:

- Evidence of demand from participants for your project to happen. This can include surveys, waiting lists, letters of support or any other evidence you can provide that shows your application is driven by local demand.
- Evidence of support for your project from your national governing body (NGB) and/or county sports partnership (CSP), i.e. anything that indicates your project will contribute to the wider picture in your sport and local area.

Full details of evidence can be provided in a supporting document(s) and submitted along with your application form. It is important to make reference to the separate evidence in your answer if you chose to do this.

i Who is the project aimed at helping?

Before answering this question, make sure you read and understand the Fund's 'Strategic Objectives'.

In your answer, highlight how you are going to engage and work with these groups or individuals and typically cover:

- What benefit your project will have on the community?
- What impact it will have on the immediate community, is the community supportive?
- Are there any possible negative impacts on the community with regards to this project? If so, what are they and how will they be overcome?

i How will your project be managed overall?

Here the Board wants to see more information about how you have planned your activity to make sure it's successful. The level of detail you need to provide will vary depending on the complexity of the activity you are planning. The Board want to gain a full picture of what will happen to have assurance that everything has been planned thoroughly. This includes all aspects of the project from early delivery (building phase) to what will happen post building phase. Examples of things to consider include:

- How will the building phase be managed?
- How will the facility be managed once built or re-developed?
- Who will have access to it?

You need to highlight here how you will deliver the project from start to end. A full, detailed plan (short, medium and long term) should be provided in a separate document along with your application; ensure you make reference to it in this section.

You will also need to provide a detailed business plan and budget plan, which will include how the new/improved facility will be kept fit for purpose. When writing the plans, think about what strategies will be put in place to keep project on track and how will the project be reviewed within your organisation to make sure that the project is successful as detailed above.

2.0 Project Details (continued)

i How will the facility be looked after and how will you ensure that the facility is replaced after its useful life?

Here the Board wants to see what considerations have been made by your organisation to keep on top of the running costs for the facility, if there are any.

The Board also wants to see what will happen in the future when running repairs are necessary, and later on when the facility needs to be either replaced or significantly refurbished. Make reference here to the organisation's long term plan, for example has the organisation built in a 'Sink Fund' within the budget to help with future repair/development work?

3.0 About your Membership and Activity Programme

i 3.1 Sessions/Participants

This is your chance to show exactly how the project can increase participation locally. The Board is looking to see what activity users currently have and what impact this project could have on future participation. It is important to consider and include the combined impact you and your partners will make when completing this section.

NOTE: Figures will be audited by the Board post project and your organisation will be required to provide evidence that the figures you submit here have been reached. It is important, therefore, that your figures are challenging but also realistic; this grid should form part of your organisation's delivery and development plan.

i 3.2 Coaches/Instructors

Here the Board is looking to see what impact the project will have on the level/number of coaches/instructors/officials and volunteers. Again, it is important your partners' impact is taken into consideration when completing this section.

NOTE: As in 3.1, figures will be audited by the Board post project and your organisation will be required to provide evidence that the figures you submit here have been reached. As in your previous response, ensure that your figures are challenging yet realistic and use this grid to form part of your organisation's delivery and development plan.

4.0 Project Financial Details

Make sure that your application is within the financial constraints that are set out in the criteria document before submitting your application. Any application submitted that is outside of the funding parameters set by the Board will not be considered. Please ensure that your application also provides a detailed project budget plan.

i 4.2 Project Costs

These costs should be headline figures only. More detailed figures should be broken down in the main project budget plan, which should accompany this application.

i 4.3 What are the annual running costs associated to any new/ developed facility associated to this project?

These costs should be headline figures only. More detailed figures should be broken down in the main project budget plan, which should accompany this application.

i 4.4 Proposed Contributions

Evidence of financial support must be in the form of a written letter from specific individuals or organisations. '*Grants from other sources*' only to be included if the application has already been successful and you are guaranteed to be awarded a grant.

i 4.5 Grant Requested

To calculate the amount of funding you are applying for, deduct the Total Contribution (4.4) from the Total Project Costs (4.2) and enter the amount left over.

5.0 Applicant's Declaration

i Applicant's Declaration

All completed applications need to be emailed (or printed off and posted). You will only be required to sign and date the 'Declaration' section once the Board has confirmed your funding application has been successful.

i Primary Contact

This should be the same as the contact on the front page.

i Authorised Signatory

This can be any person within your organisation that has budget responsibility. Often this will be the treasurer or organisation account manager.

The two signatories must not be related.

6.0 References

References

Your referees should be two individuals who know and support your organisation or club but are not directly involved in it, i.e. they cannot be members.

Whoever you put forward should be aware that you are applying for funding.
