Dear Resident / Occupier,

Update – Handside Parking Consultation – Area 3

In April the Council wrote to residents in the Handside area of Welwyn Garden City seeking their views on the parking options in and around their roads.

We are writing to residents in some roads once more as the number of replies from those particular roads totalled less than 20%. We are offering those residents a further opportunity to make their views known on what, if any, parking improvement options they may wish for their locality. We are eager to ascertain the views of as many residents as possible, including those who do not wish for any changes to be implemented. We therefore encourage all residents to engage with us by completing and returning the attached survey form. We would like to thank those residents who have already replied to the initial consultation. There is no need for them to reply further.

As a reminder, the Council will be installing double yellow lines (junction protection) on junctions as a safety measure to prevent dangerous or obstructive parking. If you feel the proposed locations need to be extended due to particular visibility issues, then please highlight exactly where on the enclosed plans, and return with the completed survey form.

The Council also intend to implement a verge and footway protection order that will enable the enforcement team to issue parking tickets to vehicles which are parked on the pavement, verge and other green areas.

In addition to the above, investigations are continuing to see if there are any suitable locations such as verges and other green areas, which could be converted to provide more parking space.

Residents are also offered the opportunity of additional measures for their roads by choosing from the options of a resident permit parking scheme, yellow line restrictions, or to remain as they are.

Welwyn Hatfield Borough Council, The Campus, Welwyn Garden City, Herts AL8 6AE
DX 30075, Welwyn Garden City 1

Tel: 01707 357000
