Dear Resident,

### **Great Break – Parking Improvements**

Parking Services have been working with your Ward Councillors to improve the parking provision in your road. I am pleased to be writing to inform you that a scheme has been approved (please see the reverse). This takes into consideration the location of trees and existing utilities. Work to create parking bays in Great Break, will commence on Monday 13th July 2020.

This scheme will formalise the existing parking by the removal and reduction of the footway to provide parking bays and relocating the footway to the rear of the new parking bays, and also improve access of the carriageway. This work will also require the trimming back of some hedgerows to the highway boundary, this may result in sections of hedgerow in some areas looking sparse, hedgerows will return to their general appearance in due course.

The presence of utilities and the restricted green space available has limited our options and the number of parking bays we can provide, but this design maximises the available space, as well as improving the access for emergency vehicles.

Working hours will be between 8.00am and 5.00pm and the works are programmed to last for approximately two weeks.

Due to the nature of the works we request that cars are not parked in, or adjacent to, the works area at any time during the construction phase. This may require you to park in Bushey Ley or Bushey Green until the works are completed. This will ensure that the work is carried out efficiently and as safely as possible, causing the least amount of overall inconvenience for residents.

We are unable to carry out this work alongside the programmed resurfacing works, due to conflict in operational procedures.

Access to properties during the construction phase will be maintained, however some degree of disruption should be expected as a result of the works.

If you have any questions relating to the above works, please do not hesitate to contact us.
