**Planning Applications
6/2020/2982/TPO**

Address	33 Peplins Way Hatfield AL9 7UR
Proposal	T1 RHS Oak 30% Crown reduction and deadwood. There is no light in the garden and these trees haven't had any maintenance down to them in a long time. A crown reduction will prolong the life of the tree and will prevent the branches from becoming too heavy and snapping in high winds. This will also allow light to get into the garden. Having a crown reduction will maintain a healthy shape and size of the tree. T2 LHS Oak Cut back side by 2M. This will allow more light to enter into the garden, currently in full daylight there is just shadows.
