7. DETAILS OF THE DECISION

Decision taken

In December 2020, the council ran a discretionary business support grant scheme funded from the Additional Restrictions Grant that was allocated to the council by the Government.

Since the scheme closed, we were contacted by a number of businesses to explain they had missed the application window and we reopened the application process to cater for these businesses and other local businesses that required support during the current lockdown period. In addition to this, we simplified the application process from a business perspective through a single support application which could be utilised for all business support grant schemes. This has allowed businesses to apply once, under which the council can continually assess against new schemes and funding windows of existing schemes. The discretionary grant scheme was set up to target those businesses which had not received funding under certain other schemes.

An initial amount is payable for the period prior to 15 February 2021 for businesses that apply and are eligible. It is recommended that these businesses receive additional payments for each 14 day period the lockdown is extended for, or pro rata based on the length of any additional lockdown periods. This will mean those businesses that applied since December would then be included payment cycle of future payments. This payment cycle is being recommended based upon the government mandatory scheme. Values will be payable based upon the following table:

Qualifying property overheads	Grant for each 14 day period
Exactly £5,000 and under	£500
Over £5,000 up to exactly £15,000	£667
Over £15,000 and under £51,000	£1,000
Exactly £51,000 and over	£1,500

Businesses applying, which had not already applied will be assessed under the same criteria to provide a lump payment to support for the period businesses had not received funding. There is no end date at the moment with the application process at this time, but funds will continue to be closely monitored, which will allow businesses to continue to apply should they not already have done so. A decision will be considered at a later date to close the scheme, and a message will be added to the site to warn businesses the scheme will be coming to an end.

Reasons

The initial intention was to award a reasonable proportion of the funding through direct grant, to help businesses through this difficult period and prevent business failure. It was agreed that further tranches of funding would be considered in future depending on the climate and restrictions for the area. This was followed with the application process reopening and the creation of a single application form for ongoing assessment.

Delegated authority was provided to the Chief Executive and the Corporate Director (Resources, Environment and Cultural Services). Since this delegation, the post holder for the Corporate Director (Resources, Environment and Cultural Services) has been appointed as the Chief Executive, and the Head of Resources as the Section 151 Officer. On this basis the decision is being made by the Chief Executive and Head of Resources.

Alternative options considered and reasons for their rejection (if any)

Not deliver a scheme – this would not be acceptable – local businesses need support and the council would be heavily criticised for not making use of the funding available.

Deliver an unrestricted, or less restricted scheme – there is insufficient information available to confirm how much interest there will be in the scheme. Not applying some restrictions/conditions may lead to a scheme which is inundated with applications, is resource intensive to administer, and does not provide meaningful support to businesses. However, based on knowledge of previous schemes, this scheme has been designed with fewer restrictions than the previous discretionary grant scheme.

Allocate greater / all funding towards business support / economic development schemes rather than a grant scheme – This would not provide the immediate and direct support required by businesses and would risk criticism should local businesses fail during this period in favour of wider and longer term business support measures. A small element will be retained for these functions and will be reassessed at a later date.
